

How To Deliver An Effective Presentation?

#visionthatdrivesthefuture

1

Know The Rules

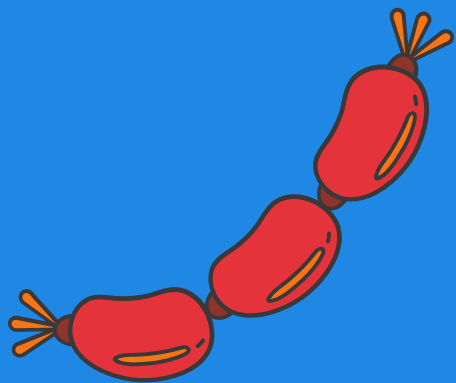

Learn the rules to compete better than others. Stay informed to surefire returns.

2

Cut the Presentation Bologna

Avoid "bluff" words, statistics, or irrelevant facts that reinforce already-existing data.

3

Frame Your Story

Create a story focused on the data-driven outcome as well as the product.

4

Plan Your Multimedia

Use a variety of multimedia (illustrations, Infographics, mind maps, props, etc.) to keep attention.

5

Plan Your Delivery

Rehearse beforehand and keep it crisp! Don't force it. Don't orate. Just be you.
